Seed Inventory Card

A friendly getting-started guide

Seed packets multiply quietly over the winter. This card set keeps your collection honest: what you have, how old it is, and whether it's still worth planting. Cut out one card per variety — or keep them all on one sheet, whichever suits your drawer.

How to use it

1. **One card per variety.** Fill in the crop, variety, source, and the year on the packet.
2. **Track the age.** Most seeds stay viable 2–5 years if kept cool and dry, but onions, parsnips, and corn fade fast. The "sow by" guess helps you use old packets first.
3. **Mark location.** "Shoebox in closet" counts. Future-you in February will want to know where the good seeds live.
4. **Do a paper-towel germination test** for seeds older than two years: ten seeds on a damp paper towel, warm spot, count sprouters after a week. If 5 sprout, sow extra thick.

> **Beginner tip:** Seeds want three things in storage: cool, dark, and dry. An airtight jar in the back of a closet beats a humid kitchen drawer every time.

Seed Inventory Cards

Card 1

Crop: _____ **Variety:** _____ **Packet year:** _____

Source: _____ **Qty left:** _____ **Sow by (guess):** _____

Stored where: _____ **Germination test result:** _____

Notes: _____

Card 2

Crop: _____ **Variety:** _____ **Packet year:** _____

Source: _____ **Qty left:** _____ **Sow by (guess):** _____

Stored where: _____ **Germination test result:** _____

Notes: _____

Card 3

Crop: _____ **Variety:** _____ **Packet year:** _____

Source: _____ **Qty left:** _____ **Sow by (guess):** _____

Stored where: _____ **Germination test result:** _____

Notes: _____

Card 4

Crop: _____ **Variety:** _____ **Packet year:** _____

Source: _____ **Qty left:** _____ **Sow by (guess):** _____

Stored where: _____ **Germination test result:** _____

Notes: _____

Card 5

Crop: _____ **Variety:** _____ **Packet year:** _____

Source: _____ **Qty left:** _____ **Sow by (guess):** _____

Stored where: _____ **Germination test result:** _____

Notes: _____

Card 6

Crop: _____ **Variety:** _____ **Packet year:** _____

Source: _____ **Qty left:** _____ **Sow by (guess):** _____

Stored where: _____ **Germination test result:** _____

Notes: _____
